# THE ULTRASOUND THAT REVEALED TRUTH

Eissa wanted to confirm her pregnancy, so she went in for an ultrasound at a PreBorn! Network Clinic while her boyfriend, Damian, waited outside. They were planning a trip to Louisiana for an out-of-state abortion when they found the Clinic, which was just across the street from Eissa's college in Houston. Miraculously, they noticed the building for the very first time.

## TWO HEARTBEATS

She was astonished and deeply moved when the ultrasound revealed beautiful, identical twins. She called Damian, "Come inside, NOW!"

Although he was reluctant, Damian eventually confronted the truth he couldn't deny. Faced with his babies' lives right in front of him, he wept. Eissa, Damian, and the ultrasound technician watched in amazement as the twins interacted with each other, already closely bonded. Despite being early in her pregnancy, Eissa's little babies were full of personality and sucking each other's toes.

The two strong parents were so moved by this powerful encounter, that they decided to cancel their trip to Louisiana.

Damian said he was a believer, but he was so afraid of becoming a dad. He found an encouraging ally in one of the male volunteers. By the end of their visit, Eissa and Damian rededicated their lives to Jesus, laying down their burdens and fears at His feet, and trusting God with their twin babies.

The Clinic was able to come alongside this couple, providing resources, referrals, and anything else they needed.

## FAITH TRIUMPHS

Eissa and Damian's story is a remarkable testimony of faith triumphing over fear after encountering the reality of precious life and truth in Jesus. We praise God that they said "Yes" to life, and more importantly, to Jesus.

*“But we are not of those who draw back to perdition,  
but of those who believe to the saving of the soul.”*

Hebrews 10:39 (NKJV)

# BE A HEARTBEAT HERO

As a college student, Abby became pregnant. She had zero support from the baby's father and was abortion-minded, but knew that her family was behind her, no matter the decision she made.

In the PreBorn! Network Clinic, a nurse gently asked Abby to gaze into the future and reflect on the decision she would be making for her baby. Abby shared that she believed abortion would solve this "issue" but that she may have a deep regret.

## A PIVOTAL MOMENT

During her ultrasound, Abby heard her baby's heartbeat and saw the preborn baby moving around. Awe-struck and moved by the life stirring within her, Abby was shocked at the development of her baby.

In that ultrasound room, Abby chose to embrace life for her baby and the journey of motherhood—a choice she could make because of the compassionate resources provided by the Clinic.

## BEACONS OF HOPE

PreBorn! Network Clinics are a sanctuary for women caught in the crossroads of life-altering decisions. They are beacons of hope, offering more than ultrasounds and pregnancy tests, but also emotional and spiritual guidance to those who feel pressured to abort.

This is why we started Heartbeat Hero, a monthly sponsorship for the PreBorn! Network Clinics that directly impacts lives and futures.

By becoming a monthly sponsor, you become a Heartbeat Hero and contribute to a lasting legacy that echoes with every heartbeat saved.

**This commitment offers abortion-minded women the opportunity to make motherhood possible.**

\*All gifts to PreBorn! are tax-deductible to the fullest extent of the law.
